RM Welcome to the RM!

Charline and I are excited about this year's sale. Texas Legacy V was just held as we go to press with this catalog and it was one of the best sales in years. Even in a down economy we still see enthusiastic support across the country for top Texas Longhorn cattle. We are seeing new breeders at many events and TLMA is introducing new marketing tools. We all should look forward to what lies ahead with this exciting breed. There is no better time to buy Texas Longhorn cattle than today.

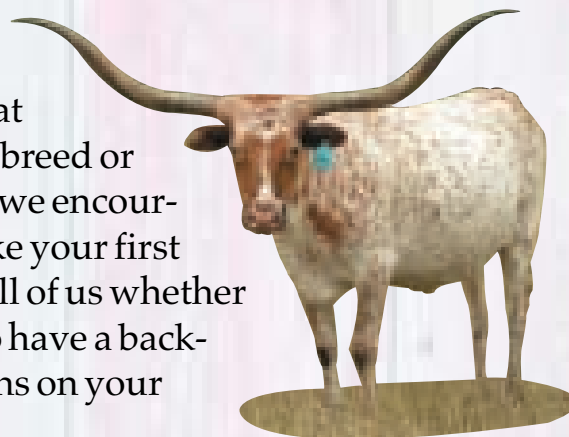

Buzz Saw
Owned by Red McCombs Ranches
and Hudson Longhorns

As many of you know, we have been building our breeding program the past few years with purchases from many breeders of top individuals from their herds. We have put together a herdsire battery using some of the best genetics in the business and we have identified certain cow families that are highly predictable and we are concentrating their production in our herd. We will be presenting a video presentation of our breeding program on Friday afternoon and hope that you will attend. We are proud to show the industry what we are doing. The photos on this page are three of our favorites.

Kodiak Frostfree

If you are an established breeder, welcome to the sale. We know you will find something special that will fit your herd at this sale. If you are new to the breed or just thinking about buying your first Longhorns, we encourage your inquiries and hope we can help you make your first purchases. This breed presents opportunities to all of us whether we are ranchers or weekenders. You don't have to have a background in cattle to own and enjoy Texas Longhorns on your place.
